

OLM is selling Aurora Golden Gala, locally grown apples. These Aurora apples are grown in the Okanagan valley. The Aurora is a very rare apple. It is crisp, very juicy and very sweet. Taste test repeatedly show that the internal qualities of this apple to be on the top of the list for consumer preference. The Aurora was selected as a true dessert apple. Try slicing the apples, waiting 5 minutes, then serving. You'll love it.

These Aurora's are individually spot picked in the best attempt to give you a tree ripened fruit of the highest quality. It's skin is very delicate, and it's translucent skin tends to show every bruise and superficial imperfection. Try a box and store it in your garage or root cellar to enjoy an apple a day...all winter long.

We also have a limited supply of Ambrosia and Jona Gold apples available. Please note that as there is a limited supply of the Ambrosia and Jona Gold apples, if you order these and we run out, we will substitute with the Aurora Golden Gala apples.
